OUR WORK CYCLE

1

UNDERSTANDING CLIENT NEEDS

Our sales team comprises patient listeners who will absorb and analyse the client's requirements in details.

2

ROUGH ESTIMATION

A rough estimate of the work at hand will be shared with clients for confirmation, post which a booking amount has to be paid.

3

FINAL QUOTATION

The team prepares a final quotation which will be submitted along with the design layout. Post the final confirmation, an expert designer gets on site measurement to initiate production at our factory.

4

ON SITE WORK

Once the products are ready for dispatch the advance amount of 50% will be collected from the client and we deploy workers and supervisors on site.

5

KEY HANDOVER

Within 60 working days our team will handover the home to our valuable clients - a home where every element speaks of perfection.

6

LIFE TIME SERVICE

We never leave you after completing the work. We provide lifetime service along with two complementary services.
